Away We Go!

Talk with me about...

Read with me!

-  This new category is called **vehicles**.
-  Vehicles take us places.
-  There are many different kinds of vehicles: **cars and trucks, motorcycles, planes, bicycles, trains, dump trucks, and even hot air balloons!**
-  I am learning to "Name a vehicle".
-  Vehicles travel in the air, on tracks, on the road, in the water.
-  Vehicles operate in different ways: **flying, driving, steering, dumping, sailing, taking off, landing, etc.**
-  Vehicles have all sorts of different parts: **tires, steering wheel, wipers, keys, hood, gas cap, propeller, etc.**
-  We take care of our vehicles by **washing them, fixing them, and filling them up with gas.**

Our letters and numbers

Number of the week:

4

Letter of the week:

Pull me close...

Let's play!

-  At school, sometimes I get to be the "Twiggle Helper". It is so fun! I get to wear a special badge and I get to help out at circle. It's a very special job. If you hear me tell you I was the "Twiggle Helper," celebrate a little with me. It's helping me to learn to feel brave in front of my friends, and to feel special too!
-  I'm learning a big, new word: **compliment**. I am learning that we give compliments to one another by telling people what we like. When you tell me how proud you are about something I did that was hard, you're teaching me to give compliments.

-  When I take my bath, it's a fun time to play. I love the warm water and having you all to myself for a little while. Let's float some things in my bath water and pretend they're boats or ships. Let's let them get full and SINK!
-  Cars and trucks are fun to send speeding away! I would love it if we could make some tunnels for our cars! We could even use toilet paper or paper towel rolls (or PVC pipe) and tape them together. The more we tilt them, the faster they go!

Can you find the number 4? There are two of them!
