

These are all things you can SMELL!

Use this script for your Year 1 children as they experience and talk about THINGS THAT SMELL.

Point to each of the items on this sheet and the actual things they'll smell. "We're going to smell these things." Have the children smell each real item. Label each as you point to the object and then the pictured object. "Yeah, that's a banana. You're smelling a banana." Have the children name the item as/after they smell.

Expatiate by using relevant Year 1 descriptors like "It's smells GOOD/YUMMY/A LITTLE STINKY." Then blindfold the children if they are willing or have them cover their eyes as they smell each again. See if they can name the objects they smell or touch the pictures. The goal is the have the children smell and name and/or touch all three items based on their smell.
