

What do you hear?

This is for a Year 1 HEARING activity. Use this script to help children name and describe items on the basis of WHAT THEY HEAR.

Show the pictures. Point to each and label it. Make sure the children pantomime each sound after you. For example, "This dog is barking. Woof! Woof! Show me how you bark". Next, get ready to play the sounds. Act excited. "We're going to hear some things. Let's see if you HEAR something. Can you tell what it is!" Play each sound and for each ask, "What's that?" Have the children touch the picture and/or name the sound they hear. If they successfully touch/name the object heard, expatiate by using any relevant Year 1 that makes sense like "LOUD, SOFT, SAD." Have the children repeat the descriptor after you if they are willing.
